

Our global core platform, driving productivity and enhancing customer experience.

Our global Customer Connect platform, built on Salesforce, and live now in all our markets. Integrating sales and marketing activity gives our consultants the functionality to drive relevant customer engagement and increased productivity in our business.

Impact on our business

Global ... One version for all markets, not a variation per market; we rapidly deploy innovations and enhancements to everyone, at the same time. This means we drive productivity globally and are ready for any changes in the recruitment market.

Connected ... a fully integrated Sales and Marketing platform, inextricably linking customer engagement, seamless recruitment execution and data & insight.

Feature Rich ... functionality that better enables consultant productivity and customer experience.
