

Driving social and economic value for our stakeholders and our business

At Page, we prioritise creating value for all our key stakeholders and are committed to fostering a diverse and inclusive culture. This commitment is what drives our employee attraction, retention, and engagement. Additionally, we have also built specialist recruitment teams focusing solely on DE&I solutions and green jobs, enabling us to build strategic relationships with our customers. Our social impact programs focus on empowering underrepresented groups by utilising our employees' recruitment skills to support them in gaining employment.

Impact on our business

Human Capital Management expertise powers our business so we can create economic and social value

We are on target to **change 1 million lives by 2030** creating measurable social impact

We will be **net zero by 2030** and are at the **forefront** of **shaping** the future of green jobs
